

Production Area:

This wine is obtained by excellent red wines of Apulia and Sicily.

Grapes:

For about 60% of Apulia the varietal is Primitivo del Salento grown from "alberello" (small trees) vines which are almost 50 years old, which have a very low yield and the maximum concentration of colors and flavors. About half of this varietal after harvest is kept to slightly dry to emphasize its concentration. The remaining 40% is made of Sicilian grapes like Syrah, grown in height, coming from the best-exposed vineyards and well-structured Merlot gently matured in barriques.

Colour:

Deep red with purple glints.

Bouquet:

Chocolate scents with notes of vanilla.

Taste:

Powerful but always pleasant with clear notes of highly concentrated red fruits.

Service:

Fresh cellar temperature and ideally 16 - 18° C.

Food Suggestions:

Magic as conversation wine it is the perfect companion to meat and tasty cheese.
